

How do I get in Touch?

Members of the team, are always in school to offer advice and support.

"It's nice to know my daughter feels comfortable being able to talk about her problems.

It's nice to have someone to go to. I feel like I'm talking to a family member, and look forward to having a good chat."

Year One Cage Green Parent

"Not only did the pastoral team at Cage Green find the relevant support for my children, but they also gave me the moral support I needed.

Our family has benefitted from the support given, not just as individuals, but as a whole unit." **Cage Green Parent**

Cage Green Primary School

Cage Green Road,
Tonbridge.

Cage Green Primary School
and the Phoenix Centre for
Autism.

Left to Right:

Debbie Blake (Pastoral Assistant)

Abi Gray (Pastoral Assistant)

Luna Shacklock (Family Liaison officer
and Team Leader)

Jeanette Archer (School Counsellor)

Our Beliefs

There is a well recognised link between feeling emotionally strong and our ability to learn. At Cage Green, we want 'every child to reach their potential' and it is important to provide a nurturing environment which will help children to become more resilient and to improve their self-esteem. With this increased confidence the children will be more able to think collaboratively with each other, and to become creative and independent thinkers and learners.

The Pastoral team work very closely with parents, class teachers and other professionals to give your children the best opportunity to develop into happy young people.

Some things we do:

- 1:1 Talk time session with children
- Friendship Groups
- Lunchtime 'Sunshine Club'
- Tailored support such as: advice on benefits, sleep, toileting, family relationships.
- Coffee and a chat.

My Child's behaviour worries me.

I am worried about money.

I am struggling to get my child into school

I am struggling to cope... what should I do?

How can I help my child to calm down?- she is angry all the time.

All we seem to do is argue.

My child is finding it hard to make friends

Sometimes it's really hard to know how best to help my children.

I am worried my health is affecting my children

We just need someone to talk to.
